

# Dresser 8C175 Meter

The 8C175 Meter is the smallest, lightest and most versatile rotary gas meter we produce. Permanent accuracy, rugged construction, wide rangeability and simple field testing add up to the best investment in gas measurement equipment your company can make.

## Features

- Lightweight aluminum construction
- Rugged hard coated cylinder, headplates and impellers
- Compact size
- Multi-position mounting
- 175 PSIG (1200kPa) working pressure
- Low maintenance
- Long service-life
- Simple installation: 1-1/2" NPT male connections
- Available in imperial and metric measures

## Testing

All units are subjected to rigorous hydrostatic, leak, starting and running differential tests.

Accuracy and differential data are furnished for 100% and 10% of rated capacity from positive displacement bell provers.

## Capacities
